

WCCS18 WORLD CONGRESS ON CANCERS OF THE SKIN® 15–18 AUGUST 2018 • SYDNEY

17th World Congress on Cancers of the Skin® 2018 (WCCS18)  wccs2018.com

The **World Congress on Cancers of the Skin®** has become a major interdisciplinary and influential Congress for clinicians and basic scientists working in the challenging fields of melanoma and non-melanoma skin cancer.

Under the auspices of **The Skin Cancer Foundation, New York**, in conjunction with **The Skin and Cancer Foundation of Australia**, this exciting Congress endeavours to bring over 1,000 attendees together from across the world. The **World Congress on Cancers of the Skin®** is held in a different country every two years, and is sponsored jointly by **The Skin Cancer Foundation** and dermatological organizations from the host country.

The **World Congress on Cancers of the Skin®** is an integral part of the Foundation's international efforts to combat the disease.

Since 1983 the Congress has enabled physicians to interact with distinguished international faculty and learn about breakthrough discoveries in the prevention, diagnosis, and treatment of all types of skin cancer.

The World Congress not only brings together doctors from the international community, but alerts the host country's local media, who help spread the message about skin cancer and **The Skin Cancer Foundation**.
